Agility Arena Usage Rules

- Dogs should be under control at all times.
- If running a full course, only one dog at a time is allowed.
- 2 or 3 dogs may run at once if there are well-separated areas for individual drills, all dogs are under tight control, and all handlers agree to this arrangement.
- We understand that new dogs may require work on a leash. Whenever possible, though, try to run without a leash or collar. If a collar is required, it must be a flat buckle type with no hanging tabs or loops. **ABSOLUTELY NO CHOKE, PINCH, OR SHOCK COLLARS** (including "dummy" training collars) **ARE ALLOWED ON THE COURSE.**
- You may design and set your own course. However, do not try to move contact obstacles by yourself, although one person may adjust the A-frame height if necessary. If you make changes, please leave the course in a suitable format for the next person.
- The jumps and hoop should be set at a height appropriate to your dog and his/her abilities. Jump bars are designed to break away easily. Do not alter the jumps or attempt to bypass this feature.
- Please report any needed repairs to Canine Comfort Corner immediately. In addition to obvious breakage, include in your report any sharp edges, wearing or loss of non-slip coatings, missing cotter pins, and loose-fitting joints. Do not use any equipment that exhibits any of these problems. Faulty equipment should be removed from the course and placed on the sideline.
- Dogs exhibiting aggression towards people will be asked to leave
- No continuous barking, due to close proximity to neighbors
- Please pick up after your dog, both inside and outside the arena. Do not allow your dog to eliminate on the equipment or on the hog fuel surface.
- Due to insurance requirements, no children under the age of 10 are allowed in the arena. Children 10 to 14 years old must be accompanied by an adult.
